

TransactX Privacy Policy

Effective Date: June 5, 2026

Last Updated: May 31, 2026

1. Introduction

TransactX (herein referred to as “we”, “our”, “us” or “TransactX”) aims to simplify financial management by providing a unified platform that enables individuals and businesses to manage transactions, payments, and financial operations with greater clarity, efficiency, and control. Protection of personal information processed through our platform, website, applications, and related services (collectively referred to as “Services”) is an important part of the operation and administration of our Services.

TransactX is committed to processing personal information in accordance with applicable data protection and privacy laws, including the Nigeria Data Protection Act, 2023 (NDPA), regulations issued by the Nigeria Data Protection Commission (NDPC), and any other applicable legal or regulatory requirements governing the collection, processing, storage, transfer, and protection of personal information.

This Privacy Policy explains how information may be collected, used, stored, shared, and protected when individuals access or use our Services.

By accessing or using our Services, users acknowledge that certain information may be collected and processed in connection with the provision, operation, improvement, regulatory compliance and security of our services.

This Privacy Policy applies to all users of TransactX and should be read alongside the applicable Terms and Conditions governing the use of our Services.

2. Information Collected

TransactX may collect personal and operational information necessary to provide, maintain, secure, and improve the Services. The type of information collected may vary depending on how users interact with the platform, the features utilized, regulatory obligations, and applicable verification requirements.

A. Information Provided Directly by Users

When users create accounts, complete verification procedures, communicate with TransactX, or utilize certain platform features, personal information may be provided directly by users.

Such information may include:

- Full name;
- Email address;
- Phone number;
- Residential or business address;
- Date of birth;
- Government-issued identification information;
- Login credentials and authentication details.

B. Automatically Collected Information

Certain technical and usage-related information may be collected automatically when users access or interact with the platform. This information may assist with analytics, fraud prevention, system administration, performance optimization, and platform security.

Automatically collected information may include:

- Internet Protocol (IP) address;
- Device identifiers;
- Browser type and operating system;
- App version and device settings;
- Usage activity and interaction logs.

C. Financial and Transaction Information

To facilitate financial services and platform functionality, we may process information relating to transactions, wallet activity, transfers, bill payments, and other financial interactions carried out through Services provided by us.

This information may include:

- Wallet balances and activity;
- Payment and transfer records;
- Merchant transaction information;
- Transaction timestamps and references;
- Billing and subscription details.

D. Communications and Support Information

TransactX collects and maintains records of communications, inquiries, complaints, feedback, and other interactions made through customer support channels or other communication mediums associated with our Services. Such information may be used

to provide support, resolve disputes, improve service delivery, maintain security, and comply with applicable operational or regulatory obligations. Such information include:

- Customer support requests and inquiries;
- Feedback, complaints, and survey responses;
- Email correspondence and communication records;
- Chat or in-app support interactions;
- Records relating to dispute resolution or issue escalation.

E. Compliance and Verification Information

In order to comply with applicable laws, regulatory obligations, anti-money laundering requirements, fraud prevention standards, and identity verification procedures, we may also collect and process certain compliance and verification-related information from users.

These information may include:

- Bank Verification Number (BVN);
- National Identification Number (NIN);
- Know Your Customer (KYC) documentation;
- Anti-Money Laundering (AML) verification information;
- Identity verification records;
- Biometric verification information where required for identity verification, regulatory compliance, or fraud prevention and where permitted under applicable laws.

F. Minor's Policy

TransactX Services are not directed toward individuals below legal age, and the platform does not knowingly collect personal information from minors except where legally permissible or authorized by a parent, guardian, or applicable law.

3. Legal Basis for Processing

TransactX may process personal information where necessary for:

- the performance of contractual obligations relating to the provision of Services;
- compliance with applicable legal and regulatory obligations;
- legitimate business and operational interests, including fraud prevention, platform security, and service improvement;
- user consent where applicable.

Personal information will only be processed to the extent reasonably necessary for lawful and legitimate operational purposes.

4. Use of Information

Information collected through the platform may be used for purposes including:

- account creation and user verification;
- transaction processing and service delivery;
- fraud detection and transaction monitoring;
- customer support and communication;
- service improvement and operational analytics;
- compliance with applicable legal and regulatory obligations;
- maintaining platform security and operational integrity.

TransactX processes information to the extent reasonably necessary for the operation and improvement of its services.

5. Sharing of Information

Certain information may be shared with third-party service providers and infrastructure partners where necessary to facilitate platform operations, transaction processing, identity verification, security monitoring, regulatory compliance, and related service functionality.

Such third parties may include:

- financial institutions and payment processors;
- identity verification providers;
- cloud and infrastructure service providers;
- analytics and operational support providers.

Information may also be disclosed where required by applicable law, regulatory obligations, lawful requests by authorities, or to protect the security, integrity, and lawful operation of the platform.

TransactX does not sell personal information to third parties.

Personal information may be processed, stored, or transferred outside Nigeria where necessary for platform operations, cloud storage, infrastructure support, regulatory compliance, or service functionality. Where such transfers occur, reasonable safeguards may be implemented in accordance with applicable laws and regulatory requirements.

6. Third-Party Services and Integrations

Certain functionalities within TransactX may rely on integrations with external financial service providers and related infrastructure partners.

While TransactX seeks to work with providers that maintain appropriate operational and security standards, the platform does not control the independent privacy or operational practices of third-party services.

Users may be subject to additional terms, conditions, or privacy policies applicable to the third-party providers where relevant.

7. Information Security

We implement administrative, technical, and operational safeguards designed to protect information against unauthorized access, loss, misuse, disclosure, alteration, or destruction.

Security measures may include:

- access controls;
- encryption protocols;
- transaction monitoring;
- authentication procedures;
- system monitoring and fraud detection mechanisms.

It is the responsibility of all users of our services to maintain the confidentiality of their account credentials and restrict unauthorized access to their accounts.

8. Information Retention

Every information that we collect from you may be retained for the duration of the customer relationship, and a minimum period of five (5) years after, or such longer period as may be required under applicable laws, regulatory obligations, anti-money laundering requirements, audit obligations, or lawful directives issued by competent authorities depending on the nature of the information and the purpose for which it was collected.

Where information is no longer required for lawful business, operational, or regulatory purposes,, reasonable steps may be taken to securely delete, anonymize, or restrict further processing of such information where applicable.

9. Data Breach Notification

TransactX maintains procedures designed to identify, assess, investigate, and respond to actual or suspected personal data breaches.

Where a personal data breach is determined to pose a risk to the rights and freedoms of affected individuals, TransactX may take appropriate remedial measures, notify relevant regulatory authorities where required by applicable law, and communicate with affected users within a reasonable timeframe where such notification is considered necessary or legally required.

The nature, timing, and scope of any notification may depend on the circumstances of the incident, applicable legal obligations, regulatory guidance, and the measures required to contain, investigate, and remediate the breach.

10. User Rights

Subject to applicable laws and operational limitations, users may have the right to:

- request access to personal information held by TransactX;
- request correction of inaccurate or incomplete information;
- request deletion of certain information where applicable;
- object to or restrict certain forms of data processing;
- withdraw consent where processing is based on consent;
- opt-out of marketing communications.

Requests relating to personal information may be submitted through official TransactX communication channels (see 11).

11. Cookies and Technical Data

TransactX makes use of cookies, device identifiers, and related technologies to support platform functionality, security, analytics, and user experience improvements. This can be managed or disabled through applicable browser or device settings relating to cookies and tracking technologies. However, restricting certain cookies or related technologies may affect the functionality, performance, or availability of some features of the Services.

12. Changes to this Privacy Policy

We reserve the right to modify or update this Privacy Policy from time to time to reflect operational, legal, regulatory, or service-related changes which will take effect upon publication unless otherwise stated. We will always indicate the date when the last changes were published

However, continued use of the platform following updates constitutes acknowledgment of revised Privacy Policies.

13. Contact Information

If you have any questions, concerns, or requests relating to this Privacy Policy or the processing of personal information, you may contact TransactX through:
